PROFESSIONAL SUMMARY

UI/UX Developer with 4 years of experience designing and building clean, responsive and user-friendly web applications. Combines UI/UX design (Figma, wireframing, prototyping and design systems) with front-end development in Vue, React, Nuxt and Tailwind CSS. Has taken e-commerce, booking, HR and local government systems from concept and prototype to working products.

SKILLS

UI/UX Design	UI/UX Design, Wireframing & Flows, Prototyping, Responsive Design, Design Systems, Figma, Canva
Front-End	HTML, CSS, JavaScript, Vue.js, React.js, Nuxt.js, Tailwind CSS, Bootstrap, shadcn/ui
CMS & E-commerce	WordPress, Elementor, WooCommerce
Tools & Workflow	Git, GitHub, SourceTree, Trello, Agile / Scrum

EXPERIENCE

UI/UX Developer Oct 2024 - Present

Designs interfaces in Figma and builds them as responsive web applications, turning prototypes into working front-end products.

UI/UX Designer Oct 2022 - Oct 2024

Created wireframes, user flows and prototypes for web products.

SELECTED PROJECTS

Elvion: Natural Skincare E-Commerce
WordPress, Elementor, WooCommerce
Role: Figma design and prototyping + front-end development

E-commerce website for a natural, handmade soap brand with ingredient highlights, a product grid with Add to cart, testimonials and newsletter sign-up.

Pet Booking Website & Management System
Nuxt, Laravel, Tailwind CSS, Figma
Role: Figma design and prototyping + front-end development

Public booking website for a pet hotel plus an admin system with a dashboard, reservations, customer and pet profiles, and roles and permissions.

HR & Employee Management System
Vue, Laravel, Tailwind CSS, Figma
Role: Figma design and prototyping + front-end development

Lets business owners manage employee leave, payslips, expense requests, attendance and employee records, with a dashboard, an AskHR assistant and admin controls.

Children's Training & Booking Platform
Nuxt, Supabase, Tailwind CSS, Figma
Role: Figma design and prototyping + front-end development

Booking system where parents find activities and enroll their children, with credit packages, gift cards and a parent account showing booking records.

Barangay Management System
Vue, Laravel, Tailwind CSS, Figma
Role: Figma design and prototyping + front-end development

Web system for a barangay to manage residents, businesses, documents and cases, with a mobile app for residents to request documents such as a barangay certificate.
